Marshmallows

Customer requirements

Packing of 8 small bags with Marshmallows in 1 large family pack.

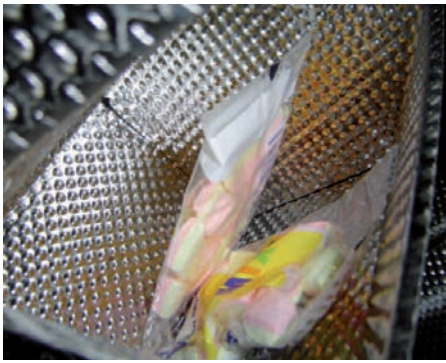

Product specifications

Product: Marshmallows
Bag size: 100x150 mm
Bag weight: 200 gram (family bag)
Bag shape: flat pillow
Film material: OPP, 40 micron
Production capacity: 25/min

Packaging process

The small bags with Marshmallows are being transported with help of the feeding conveyor to the weigher, which will weigh the right number of bags and pass this to the packaging machine which will make the family bag. The large bag will then be transported with the carry of conveyor from the AVM to the turning table, where the Marshmallows will be packed in carton boxes.
