

# 32I MGM MAGNETA MOTOR SEALER

The Sealmaster Magneta® series consists of a complete range manually operated impulse sealers with different sized models and options. This user friendly and safe machine is ideal for packing small and medium sized series. The machine can work with pre-made bags as well as with tubular foil. When working with tubular foil, the machine can produce various length bags by using the integrated shielded cutting device.

The sealing cycle of the machine can easily be started by pushing down the seal bar by using a foot pedal. Once started the magnetic bars remain closed throughout the sealing and cooling cycle and then automatically open, ready to make the next seal. The machine is suitable to seal polyethylene, polypropylene and thin laminates and cooling times are adjustable.

This 32I MGM is powered by an electrical motor and equipped with an electrical foot switch. This special system enables you to close the sealing jaws with a gentle push on the pedal. The seals are from a consistent and reliable quality.

## SPECIFICATIONS

Product	32I MGM
Seal length	320 mm
Seal width	3 mm
Type of machine	Hand sealer, Impulse sealer
Model	Table/Floor
Covering	Epoxy
Knife	Yes
Pedal operated	Yes
Type of film	Laminate, Ready Made Bags, PVC, PP (Polypropylene), PE (Polyethylene), Tubular Film
Thickness of film	2 x 150 micron
Type of package	Bag
Branche/Application	Bakery, Coffee & Tea, Fire Department, Fruit & Vegetables, Industrial Parts, Office Supplies, Packaging & Logistics, Pet Food, Shop
Type of product	Fluid, Granulate, Powder, Solid
Voltage/frequency	230V-1ph-50Hz
Power consumption	750W
Dimensions	46 x 20 x 27 cm
Weight	14 kg
