
AUDION VM 273

Large double vacuum packaging machine for heavy duty. Aluminum vacuum chambers and lid with sight glass. The sight glass enables you to view your product during your packaging process. Equipped with a strong 100 m³/h high quality Busch pump and two long seal bars in each chamber. Plug and play but if you have special packing needs, no problem. You can equip this machine with various options to have the best possible configuration for your requirement.

This machine can also be supplied as validated version

Benefits

- Standard time control
- Standard soft air to vacuum seal sharp products
- Busch vacuum pump
- Standard double seal
- Maintenance friendly and easy to clean construction
- High quality materials
- Aluminium vacuum chamber
- Aluminium lid with sight glass
- Standard 2 seal bars front and back
- Standard with IO program memory
- Easy to operate with digital display
- Standard equipped with 400-3-50 power supply

Accessories

- Liquid control
- Advanced control system (ACS)
- Additional platform
- Extra cassette
- Filling plates for lid
- External vacuum adapter
- Spare part set
- Trolley

Options

- Gas flush, modifies atmosphere packaging (MAP)
- Wide seal 10 mm
- Bi-active seal, is recommend to use when vacuum sealing aluminum or thicker bags.

- ESD (Electrostatic Discharge) to pack electrostatic products such as wafers, chips, motherboards and prints . When this occurs during the vacuum packaging cycle, it can cause damage to the product. The Audion ESD technology prevents this.
- Aluminum end blocks, for heavy duty packaging. Ensure an efficient and durable vacuum packaging process under the most extreme conditions.
- Aluminum end blocks for bi-active, for heavy duty packaging. Ensure an efficient and durable vacuum packaging process under the most extreme conditions.
- Validatable
- Calibration
- Cut-off seal, to easily tear off the residual plastic.
- I-2 cut off seal, same as cut-off seal but in addition with I-2 cut-off seal the time and settings of the seal and cutting wire can be managed separately.
- Sensor control, constant, guaranteed end vacuum
- Power supply: 200-3-50/60 / 220-3-60

Markets

- Electronics & components
- Medical & pharma & High-Tec
- Meat industry
- Food processing
- Direct marketing
- Non-food industry

SPECIFICATIONS

Product	Audionvac VM 273
Seal length	540 mm
Seal width	3,5 mm double seal
Position of the sealing bar	 <i>long/long</i>
Effective chamber size (LxWxH)	(2x) 540 x 700 x 235 mm
Type of machine	Vacuum chamber
Model	Floor, Double Chamber
Covering	Stainless steel housing/ aluminium chamber
Pump capacity	100 m3/h
Pedal operated	No
Type of film	PA/PE, Vacuum Bags
Thickness of film	2 x 150 micron
Type of package	Bag
Branche/Application	Coffee & Tea, Fruit & Vegetables, Industrial Parts, Office Supplies, Packaging & Logistics, Shop
Type of product	Granulate, Powder, Solid
