
PSR XL / PSR PLUS XL

Powerful extra large impulse sealer for ultimate product safety

Audion's XL stainless steel impulse sealer for sealing extra large (PE/ aluminium laminate/ anti static film) bags is available with a 2000 or 2500 mm seal bar length. This machine comes in 2 models: the standard PSR XL and the validatable PSR PLUS XL

The PSR XL and PSR PLUS XL series are both standard equipped with the user-friendly Audion Touch Techware. Up to 50 seal parameter recipes can be stored to make sure that the operator always has the ideal pre-set settings available for each product/package. Due to the heavy-duty construction and the high performance (bi-active) seal bars, thick and/or special films are sealed effortlessly with a reliable 8 mm seal. Sealing and cooling times are independently adjustable depending on the quality of plastic used.

- The PSR PLUS XL series can be used in validated processes and are compatible with EN 868-5 and DIN 58993, part 7 norms and also fully comply with the ISO 11607-2 and ISO/TS 16775
- *Our PSR XL and PSR PLUS XL series are also available with an integrated vacuum- / gasflush system: VAC PSR XL and VAC PSR PLUS XL*

Standard features

- Floor model
- Extra long sealing bars (2000 mm or 2500 mm length)
- 8 mm seal, suitable for sealing thicker films 20 – 400 micron
- Industrial construction with robust seal bars for extra powerful seal performance
- Stainless steel cover
- Audion Touch Techware integrated
- Validatable: monitoring seal time, seal temperature and seal force (only our PSR PLUS XL models are validatable)
- Data logging by USB
- Access control safety
- 50 recipes can be stored
- Bi-active seal bars
- Large seal opening 45 mm
- Emergency stop
- Electrical foot operation
- Pneumatically driven

Options

- Cutting device (only for PSR XL and PSR PLUS XL)
- Barcode scanner

Markets

- Industrial parts (large items or high amounts)
- Pharmaceutical industry

SPECIFICATIONS

Product	PSR PLUS XL
Seal length	2000 – 2500 mm
Seal width	8 mm
Type of machine	Impulse sealer, Validatable/calibratable/medical, Vacuum sealer
Covering	Stainless steel
Knife	Yes (only on PSR XL and PSR PLUS XL)
Pedal operated	yes
Type of film	Thicker films 20-400 micron
Type of package	ready-made bags / tubefilm
