

## AUDION MGP

“safety sells, consumers are cautious about cleanliness and value it more than ever”

### PACKAGING MACHINE FOR READYMADE SETS

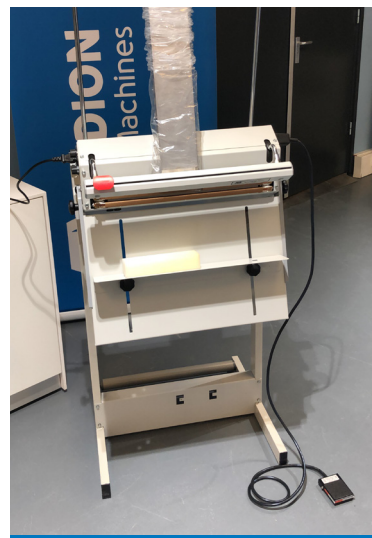

Small, easy to operate and very flexible in use is the new durable packaging machine for readymade sets. Designed to give an answer to the increasing demands of the hospitality sector how they can increase their hygiene and give their guest a safe and secure feeling.

Consumers are cautious about cleanliness and value it more than ever! With the COVID-19 pandemic and the associated restrictions fresh in their minds. Customer safety is more important than ever in the hospitality sector as nobody wants to experience that crisis again.

Given the choice between two similar products, the better packaged product will sell faster.

A good presentation of your product was always important but since COVID-19 qualitative packaging has got a another, even more important function; safety.

Qualitative packaging and good presentation showcases trustworthy, safe preparation to the end consumer and safety sells.

### MARKETS

Audion, active in the packaging industry since 1947 has the expertise and knowledge, to elevate the presentation and safety of your packaging and beat the competition through custom packaging solutions.

The new Audion MGP is a good example of this. This competitive priced packaging machine can pack readymade sets like:

- **Cutlery**
- **Coffee sets, milk, sugar and a spoon**
- **Sauces sets, mustard, ketchup, mayonnaise etc.**
- **etc**

As quick as you can pack readymade sets, you can change this versatile packaging machine in order to pack larger products. As flexible is key in this fast changing world

This makes the Audion MGP an ideal packaging machine which enables you to make the difference and gain the trust of your customer. Which result in boosting up your business.
